Vanity Cabinet Care

Kitchen Cabinet Distributors wants your cabinets to remain beautiful for years to come, so we've put together some basic maintenance tips to help you care for your new cabinets.

Cabinet Care Tips

- Wipe your cabinets with a clean, soft, lint-free cloth.
- Use warm water or a mild dishwashing liquid mixed with warm water.
- Ensure spills and splatters are wiped immediately to avoid staining. Prolonged exposure can create discoloration or damage to the finish.
- Always dry surfaces thoroughly once you are done cleaning.
- Wash and polish your cabinets once or twice a year using a coat of high quality, oil-based furniture polish. An emulsion-type clear polish is recommended. Do not use wax-based products as this causes buildup on the cabinet surface.
- Avoid exposure to high heat sources. To avoid damage, we recommend removing cabinet doors and drawers near self-cleaning ovens during cleaning cycles.
- For glass door fronts, use ammonia-free sprays and spray directly on cleaning cloth to avoid spraying cabinet.

What to Avoid

- Don't use harsh detergents, strong soaps, abrasive cleaning products, scouring powder/pads or other harsh abrasives.
- Don't use spray polishes containing silicone or petroleum solvents.
- Don't use products that contain ammonia.
- Don't use bleach or products containing bleach.
- Don't use a dishcloth or sponge to clean or dry cabinets. They may contain grease or particles that damage the finish.
- Don't mount or place heat-producing appliances beneath cabinets due to excess heat and moisture exposure. If you notice moisture buildup, wipe dry immediately
- Don't use brass and silver polishes on hardware as they contain harsh chemicals that can damage the cabinet finish.

Vanity Cabinet Warranty & Compliancy

Kitchen Cabinet Distributors warrants that all of its products will be free from defects in workmanship and material for a period of five years from the date of shipment from our facility. This limited warranty applies only to the use of our products in normal residential use. Defects are defined as any imperfection that may prohibit the use of the cabinet in normal residential applications or which otherwise do not measure up to our quality standards. This warranty applies to the original owner and cannot be transferred to subsequent owners. Defects or damage caused by improper assembly or disassembly, intentional damage, misuse, product modifications, exposure to the elements, accident, or negligence on the part of persons other than Kitchen Cabinet Distributors is not covered by this limited warranty.

Kitchen Cabinet Distributors factories are ISO-14001 compliant, KCMA Certified, and meet the TSCA or CARB II emissions standards.

These vanities are **CARB2 Compliant**. What does this mean to you? That the California Air Resources Board has ensured these products meet strict environmental standards that have been certified by independent third party companies for low VOCs. This protects you from airborne toxic contaminants such as formaldehyde emissions. This allows Mosaic to proudly offer you products that are safe for your family.
